

SX 408A

Subwoofer System

PROFESSIONAL SOUND EQUIPMENT

SX408A front

The newest member in the SX series family is the SX408A active subwoofer. This subwoofer, with its own built-in amplifier of a merely 150W and a well constructed 8" subwoofer, is capable of producing an incredibly powerful and clear bass sound. The very narrow design makes it suitable for unobtrusive installation on the ground and makes it very easy to hide away. The optional MBK408 wall bracket provides the possibility to install the SX408A on almost any wall.

 **CE** approved product

For a period of 2 years, starting from the original date of purchase, Audac products are covered against defects in workmanship or materials. The defective item will be repaired or replaced at the option of Audac, with no charge for materials or labour. You have to adequately pack up and dispatch the item prepaid to an Audac authorized distributor/service centre. Unauthorized repair shall void the warranty. Cosmetics and finish are not covered by this Audac warranty. The warranty is also voided if, in Audac's opinion, the items have failed due to user abuse, accidents, modifications or any type of misuse.
