LEDCON-02

:: Product Description

LEDCON-02 is an allround LED remote control with extreme flexibility!
 LEDCON-02 has all the advantages of LEDCON-01 but it comes with an integrated LED light modulator (switchable: 4 or 8 channels) for LED PAR56 and LED PAR64 projectors!
 Now you will be able to control your LED PAR-projectors exactly the same way you did with your old halogen PAR-lamps when used with a traditional light modulator! But you can also do a lot more...

* Remote controller for:
    * LED MANAGER
    * LED SPOT & LED WASH
    * LED BALL
    * LED PAR56 and LED PAR64
* Different working modes:
    * 4 or 8 channel LED light modulator with integrated, music controlled, chases.
    * Fixed color mode: Instant access to 9 pre-programmed colors
    * Static chase mode: 12 different color chases with manual speed control
    * Sound chase mode: 12 different color chases with audio triggering
    * Spectrum mix: 32 different spectrum mix colors, including color fades
* Adjustable speed and dimming with fader
* Blackout and "Full on" function
