## NS7FX

MOTORIZED DJ-SOFTWARE PERFORMANCE  
CONTROLLER WITH FX + SERATO ITCH

**THE SERIOUS SYSTEM.** Designed by Numark in collaboration with Serato, NS7FX represents the pinnacle of digital DJ performance. NS7FX combines a premium mixer with two motorized, adjustable-torque turntables, real vinyl, and a professional audio interface to deliver a complete performance solution that will satisfy the most hardcore turntablist. NS7FX also includes powerful effects controls for hands-on manipulation of the wide range of effects built into the included Serato ITCH software.

A full complement of premium faders, knobs, buttons, and our new Strip Search virtual needle-drop control integrates seamlessly with ITCH. NS7FX exchanges turntable and control information with your Mac or PC at more than ten times standard MIDI resolution, resulting in a rock-solid hardware/software system that feels and as good as it looks.

You want the feel of real decks and vinyl. You want the power and flexibility of a computer-based DJ system. You need NS7FX.

### FEATURES:

- High-resolution digital DJ controller with effects, built for Serato ITCH and compatible with Scratch LIVE libraries
- Direct-drive, motorized turntable platters with classic and modern feel settings
- Activate and control the effects in Serato ITCH
- Includes Serato ITCH DJ software
- Built-in audio with audiophile-grade circuitry, 24-bit interface
- Extensive loop, cue, and track-access controls
- Strip Search (patent pending) virtual-needle drop control
- Controls most MIDI applications without requiring a mouse or keyboard
- Rugged, all-metal construction
- Integrated laptop stand
- Fits in NS7 CASE for protection in transit to the gig
