# MEP-7000

Advanced multi entertainment system

The controller is also available separately as the SEP-C1

SEP-C1 Specifications	
Power	USB bus powered
Dimensions (W x D x H)	483 x 84 x 133 mm
Weight	1.7 kg

With the use of computers and USB media being commonplace in the mobile DJ and bar market, the rack-mount-ready MEP-7000 Multi-Entertainment Player and SEP-C1 Software Entertainment Controller provide a portable, professional solution.

The MEP-7000 allows DJs to play (MP3\*1/AAC/WAV/AIFF\*2) files from various memory sources, plus music from CD/CD-ROM/DVD-ROM data discs, and is compatible with Pioneer's DJS software\*3. The MEP-7000 also acts as a MIDI controller via USB connection to compatible computer applications.

CD-G Disc Playback

At the heart of the MEP-7000 is an innovative 4.3-inch colour LCD display for easy navigation and even viewing video when a CD-G disc is inserted for karaoke-style shows. Playback can also be fed to external monitors through the video output terminal.

Effects Section

Browser Section

Performance-wise, the unit inherits many features from the popular CDJ series, including 3 Scratch Jog Effects and 3 Digital Jog Break Effects, which are controllable via the Touch Sensor Jog Wheel.

For ultimate convenience, up to 20 Playlists can be setup and the Auto Mix feature applied with 5 Mix Modes to choose from. An advanced multi-entertainment system for all-round use, the MEP-7000 is in a class of its own.

\*1 MPEG-1 Audio Layer3, MPEG-2 Audio Layer3 LSF.  
 \*2 Available only on USB storage device; WAV/AIFF recorded on CD/DVD media cannot be played.  
 \*3 MEP-7000 can control DJS (version 1.6)
