VCI-100MKII USB MIDI AND AUDIO CONTROLLER

TRAKTOR LE

Bundled Software Traktor LE

Don't control music, create it

INTRODUCTION

In 2006, Vestax introduced the VCI-100, the world's first professional USB MIDI controller, which perfectly fit into the upcoming demand of the computer DJ scene.

The concept of flexibly controlling any DJ software and being built with Japanese parts and mechatronics technology enabled the VCI-100 to make its mark in the DJ world. Over the years as the entire DJ scene made its shift to computer based DJing, we kept collecting requests and demands to make another mark. This time, with the VCI-100MK2.

FEATURES

> 4 Deck Control
> Professional high quality audio interface

TOP

FRONT

REAR

4 DECK CONTROL

Mix maximum 4 decks by switching through with the DECK selector.

MULTI FUNCTION JOY STICK (NEW)

Instant access through your track lists, quick track previewing and track loading all with one joy stick.

TORQUE CONTROL (NEW)

Every DJ has a preference for the touch of the JOG wheel, which relates to the DJs play style. The rotation torque of the VCI-100MK2's JOG wheels can be tuned to your preference by simply adjusting the centerpiece.

ERGONOMIC CONTROL KNOBS (NEW)

Ergonomic design control knobs with anti-slip coating provide the perfect touch to make accurate adjustments.

REFINED CONTROL (NEW)

All buttons of the VCI-100MK2 are tuned to provide a stressless refined touch and communicate with extreme precision. LED backlights provide excellent visibility and tells you the current status of your setup.

ALUMITE PANEL

The strong & solid alumited top panel secures the VCI-100MK2 and provides a professional appearance. Just looking at it tells you it will live up to heavy duty.

HIGH QUALITY AUDIO

The VCI-100MK2 includes a high quality 16bit/44.1kHz 2in4out audio interface, which enables to add CD players, turntables, effects, samplers and more to your DJ setup. Also considering DJs who want to have options, the VCI-100MK2 can also be used with other audio interfaces.
