Virtual Controller III...
so what?

Take advantage of advanced features such as:

### Easy Remote
Control your lighting software
from a smartphone or tablet.
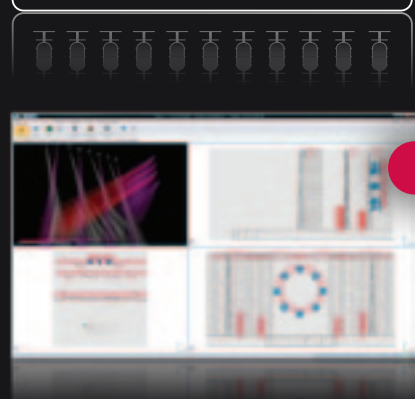

NEW!

Scene Generator
Take it easy !

Create the lighting effects you've always dreamed of with this tool. LED matrices, color mixing and Pan/Tilt movements are easy to make with the generator.

MIDI and DMX IN
Triggering & Control

Control Daslight's channels and features with a Midi board plugged into your computer. Record DMX and trigger scenes and effects with the DMX input signal.

Virtual 3D Simulator
Visualize your whole show

The included 3D visualization software comes with many effects and a realistic rendering of textures, gobos, prisms, shadows and object shading. Whether you are at home, in the office, or presenting to a client you can always feel you are on the stage.

Virtual Screen
Create your own lighting desktop

Create your own lighting control user interface. You can use a simple touch screen to trigger your Virtual Controller 3 scenes.

Virtual Controller III

What did you do before Daslight?

Daslight is famous for its ease of use.

Virtual Controller 2 is going to be your best

friend for all your lighting projects. No

lighting console needed! With the features

of a more expensive controller, Daslight gives

you a lot of power at a great price.

Do you want to try?

3 steps to live it up!

1. Setup

Setup Screen

Patch & Set your fixtures.
Browse the library for your fixture, or
you can ask for us to create one for you.

2. Design

Editor Screen

Create your own shows.
Use the effect generators.

3. Play

Live Screen

Run your show.
Keep manual control.
