

The APart E-VOLST-BL is a 100Volt stereo volume control that can handle up to 2x40 Watt of power.

It is very versatile thanks to the step-by-step attenuation in 10 steps.

The E-VOLST-BL is built on a universal chassis that easily can be integrated with Gira, Jung and Euro. Different cover plates are available for the UK market.

NOTE : Can only be used with E-MODON as a surface mounted
