

The H20-G is a powerful weatherproof industrial horn loudspeaker with compression driver. It offers a high sound pressure, which makes this loudspeaker ideally suited for speech and the reproduction of alarm signals. The H20-G is ideal for long-distance and outdoor use.

Thanks to its stainless steel bracket, the H20-G will remain truly rust free. The bracket also makes it possible to rotate the speaker over a range of more than 180 degrees. Because this horn speaker is constructed in high impact ABS, it is able to withstand even the harshest of elements.

The loudspeaker is equipped with a high quality 100-volt transformer with several power taps, and can also be used in 8-ohm systems. The APart technology avoids any overload of your amplifier by controlling the impedance with the unique IMC protection device inside.

TECHNICAL SPECIFICATIONS

Type :	Compression driver horn speaker
Material :	high impact ABS
Standard colour :	gray RAL7035
Rated power RMS :	20 W / 100 volt
Music power RMS :	30 W / 100 volt
Transformer power taps by rotary switch :	2.5 – 5 – 10 – 20 W / 100Volt
Rated power RMS :	20 W / 8 ohm
Music power RMS :	30 W / 8 ohm (lo-cut)
Impedance:	100 volt / 8 ohm
Cable length :	Approx. 40 cm
Dimensions Outside Ø :	200 mm x length : 232 mm
Weight including bracket :	1.36 Kg
Mounting holes :	3 x Ø 6.5 mm
