

The Apart MICPACB-D is a sturdy CB type paging microphone. This omni-directional dynamic microphone is designed for close talking applications, and is ideal for paging messages to all zones.

The build-in 2-pole non latching switch activates the microphone when pressed. Removing pressure from the switch will automatically turn off the microphone.

A coiled cable with an approximate length of 1.3 m (3.3 m extended) is fitted with a lockable DIN5 connector. A metal wall mounting clip is provided with the microphone.
