APart PA4060 AMPLIFIER

This 19" 4 channel power amplifier is very compact and supplies you with 4 x 60 watt in 4 ohm use.

The PA4060 has convectional cooling (no fan) what makes it very quiet and maintenance-free.

The input signals can be linked via the routing switches or via RCA CINCH cables
The amplifier is equipped with build-in limiters and the following controls and indications are available on the front panel:

- * Volume left - right
- * Signal - protect & limit led per channel
- * Power on/of

It is advised to order the PA19 mounting bracket in case of 19" rackmount use.

TECHNICAL SPECIFICATIONS

Input	RCA Cinch unbalanced 1V / 10 kOhm
	Link: RCA Cinch unbalanced 1V / 10 kOhm
Output (RMS Program)	8 Ohm: 4 x 50 watt / 70 watt Max 4 Ohm: 4 x 60 watt / 90 watt Max
Frequency Response	15 Hz - 30 kHz
Distortion	< 0.03%
Dimensions (H x W x D)	44 x 483 x 325 mm
Weight	6.9 Kg
