

X HD Card

APOGEE X-SERIES

Direct to Pro Tools | HD™...

At last Apogee makes the direct connection to Pro Tools | HD systems a reality. The Apogee X-Series-HD option card allows for direct connectivity between Pro Tools HD™ systems and Apogee's AD & DA-16X, Rosetta 800 or Rosetta 200. The result is an incredibly powerful combination of Digidesign's™ industry leading software and a new generation of superior Apogee conversion and clocking hardware that provides a workstation that will excite Apogee and Pro Tools™ fans alike.

No Other Hardware Required...

With an X-HD card installed, connect AD-16x, DA-16x, Rosetta 800, and Rosetta 200 directly to your Pro Tools™ core or Accel™ card with **no other hardware required.**

Digidesign, Pro-Tools, Pro Tools | HD and HD Accel are trademarks of Digidesign, a division of Avid Technology, Inc

X-HD Card Features:

- ▶ Primary HD port for connecting directly to HD Core or Accel cards.
- ▶ Expansion port for daisy-chaining multiple Apogee devices (AD & DA 16-X, Rosetta 800 & Rosetta 200)
- ▶ Compatible with the latest versions of ProTools (6.0/6.1)
- ▶ May be used along side similar interfaces (such as Digidesign 96 I/O, 192 I/O, Prism Dream ADA-8)
