

CMX220

Mini Shotgun Microphone

PROFESSIONAL SOUND EQUIPMENT

CMX220

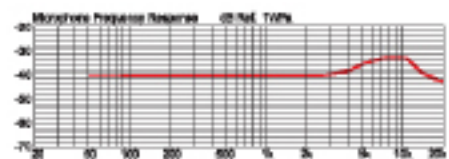

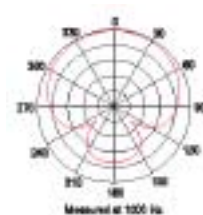

The CMX220 mini shotgun condenser microphone can be used in various sound applications, but will especially prove its worth when applied in practices comparable to conferences, public communications, (outdoor) speeches and use in church and court.

The line + gradient polar pattern allows a more directed sound-recording. Together with the high sensitive condenser microphone, this feature makes the CMX220 the ideal appliance for users who want to record sound from a small distance without cutting back on quality.

The 360 degree revolving and light weight design make this product easy to handle, allowing users to precisely determine the position of the microphone. Provided with a foam windscreen, this microphone is suited for in - and outdoor applications. The iron grey color and modest design will make the CMX220 merge with every single environment.

PRODUCT FEATURES :

Type	Back electret with interference tube
Polar pattern	Line + gradient
Element	pressure gradient, FET preamplifier
Frequency response	50 Hz ~ 18 kHz
Sensitivity	-40 dB \pm 3 dB (0 dB = 1V/Pa @ 1 kHz)
Impedance	250 Ohm \pm 30% (@ 1 kHz)
Load Impedance	1250 Ω
Equivalent noise level	21 dB A
Maximum SPL	125 dB (THD 0.5% 1000 Hz)
Signal-to-noise ratio	72 dB
Dynamic range	105 dB
Power supply	Phantom Power 16—52 V DC
Current Consumption	3.5 mA
Output connector	3 pin XLR connector Gold plated
Color	Iron grey
Dimensions	\varnothing 19 mm x 238 mm
Weight	Approx. 750 gr
Accessories included	Foam windscreen

About Audac :

AUDAC provides a complete range of audio equipment such as amplifiers, loudspeakers, microphones, conference microphones and much more.
