CS 85

### FEATURES :

High quality 2-way ceiling loudspeaker + tweeter

Quick and simple mounting

Detachable, metal grid

### APPLICATIONS :

Can be used inside, as well as in damp rooms or outside

Brilliant reproduction of all kinds of music

## CS 85

Extremely high-quality ceiling loudspeaker for installation.

The 2-way loudspeaker with a diameter of 125 mm for low frequencies and a tweeter, mounted in the middle, for high frequencies ensures a brilliant reproduction of all kinds of music.

The loudspeaker has had a moisture-proof treatment.

Because the grid is made of aluminium, the loudspeaker can be placed in damp rooms or outside.

Below the detachable grid, there are 4 screws for a quick and simple mounting.

The grid, when replaced, effectively covers the fixing screws.

The loudspeaker is standard fitted with a 100 Volt line transformer with different power connections.

A 16 Ohm version is also available (CS85/D).
