

WS 524

WS 624

WS-series

Professional in-wall Speakers

FEATURES :

High quality 2-way speakers

Detachable aluminium grid

Quick and simple installation

APPLICATIONS :

Can be placed inside, as well as in damp rooms or outside.

Beautiful, warm sound reproduction

WS 524

Elegant square wall loudspeaker for high quality installation. The loudspeaker combination used in this 2-way version is fitted with a 125 mm low frequency loudspeaker with a very powerful magnet and a 25 mm silk soft dome high frequency loudspeaker which is fixed in the centre of the low frequency loudspeaker. This combination ensures a beautiful warm sound reproduction for music and for speech. The low frequency loudspeaker has a cone of polypropylene (PP) and the silk dome of the high frequency loudspeaker has had a moisture-proof treatment. Because the grid is made of aluminium, the loudspeaker can be placed in damp rooms or outside. Below the detachable grid, there are 4 screws for a quick and simple attachment of the unit. The grid, when replaced, effectively covers the fixing screws. The loudspeaker is standard fitted with a 100 Volt line transformer and with connections for different powers. A 16 Ohm version is also available (WS524D).

WS 624

Elegant rectangular wall loudspeaker for high quality installation. The loudspeaker combination used in this 2-way version is fitted with a 125 mm low frequency speaker with a very powerful magnet and a 25 mm silk soft dome high frequency loudspeaker. This combination ensures a beautiful warm sound reproduction for music and speech. The low frequency speaker has a cone made of polypropylene (PP) and the silk dome of the high frequency loudspeaker has a moisture proof treatment. Because the grid is made of aluminium, the loudspeaker can be placed in damp rooms or outside. Below the detachable grid, there are 4 screws for a quick and simple attachment of the unit. the grid, when replaced, effectively covers the fixing screws.  **CE** approved product

For a period of 2 years, starting from the original date of purchase, Audac products are covered against defects in workmanship or materials. The defective item will be repaired or replaced at the option of Audac, with no charge for materials or labour. You have to adequately pack up and dispatch the item prepaid to a Audac authorized distributor/service centre. Unauthorized repair shall void the warranty. Cosmetics and finish are not covered by this Audac warranty. The warranty is also voided if, in Audac's opinion, the items have failed due to user abuse, accidents, modifications or any type of misuse.
