PRODUCT INFO

The Power Shots are the most easy and professional confetti and streamer shot units available. The Power Shots are designed to fire prefilled single use electric cannons. The electric cannons contain a pressurized nitrogen cartridge for a powerful effect. The cannons are available in 40 and 80 cm's, prefilled with confetti or streamers. Electric cannons save time, are available at a low price and are easy to use. Electric cannons launch confetti up to 12 meters and streamers up to 20 meters!

The Power Shot fires a cannon as soon as it is connected to a 230V power source. This makes it possible to fire cannons easily by any 230V power switch. Imagine all possibilities: by remote control, by a foot switch or in combination with a switch pack by DMX.

The new MAG:CFX® Stage Flame is the flame system of today! The Stage Flame allows the user to use aerosol canisters or propane gas from a propane gas bottle. With a 500g aerosol can you can produce 250 - 275 flame balls!
 The Stage Flame has also a mode to use both gas sources at the same time to create a 'big flame'.
 The Stage Flame is DMX controllable, designed for professional use and equipped with only high quality European components for maximum safety. The on board DMX module uses two DMX addresses, one safety address and one fire address. For the big flame option there is a third DMX address so you can produce standard flames and big flames for more variety.
 The Stage Flame contains 2 red LED's to warn the artist on stage. The Stage Flame is also equipped with an infrared sensor which shuts down the unit as soon as it is subject to a big shock or when it is tilted. Besides the Stage Flame has built in flashback arrestors and a flame detection system for maximum safety!
