

CU-3BOOST

Level matching amplifier (LED booster) for RGB LED controller

- For operating additional LED lamps at an LED controller with pulse width control, e.g. CU-3LED, CPL&prothyp;3DMX and CU-3IR
- Signal inputs: 1 x +COM, 1 x red, 1 x green, 1 x blue via screw plug-in terminals
- Outputs: 6 x +COM, 2 x red, 2 x green, 2 x blue via screw plug-in terminals
- Output current: 10A max. per terminal, in RGB operation: 12A max. per colour, total: 36A max.
- Power supply: 12-24V&dircurrent;/36A via 2-core cable (6mm²)
- Dimensions: 130x103x37mm
- Weight: 430g
