DUAL SCAN LED

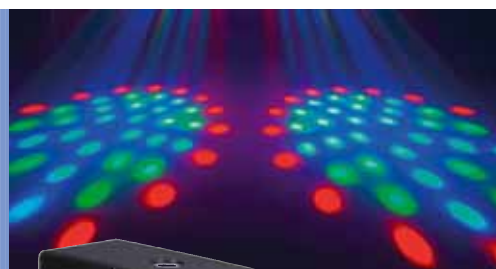

Le DUAL SCAN LED est un double effet lumineux Moon flower multicolore. La rapidité de déplacement associée à l'effet des LED donnent un rendu très intéressant. La technologie LED permet d'obtenir des projecteurs qui ne chauffent pas, sans émission d'UV. Consommation électrique extrêmement faible. Pas de lampe à remplacer. A l'utilisation vous apprécierez le DUAL SCAN LED pour sa simplicité d'utilisation et sa couverture lumineuse.

DUAL SCAN LED is a multicolour DUAL MOON FLOWER effect. The speed of moving combined with the LED effect create a very interesting result. The use of LED technology prevents from an exceeding temperature and UV emissions. Very low electrical consumption and no need to replace LEDs. When using the DUAL SCAN LED, you'll be pleased by its simplicity of use and its lighting spread.

Technical Specifications DUAL SCAN LED

| | |
|------------------------|---|
| LED total | 92 high power LED (46 LED on each side) |
| Manual Mode | Sound activation – Built-in program |
| RGB System | 32 Red LED / 30 Green LED / 30 Blue LED |
| Consumption | 9 Watts |
| Dimensions (L x l x P) | 363 x 332 x 111 mm |
| Weight | 4,7 kg |
| Additional products | AC 100 |
