The 3D features of Optoma projectors can only be used with compatible 3D content. Typical applications include use with 3D educational or 3D design and modelling systems. Support for 3D TV broadcast systems, (SKY in the UK) 3D games from a PS3TM and Blu-ray 3DTM will require the Optoma 3D-XL that is available separately.

The 3D-XL has been tested by Optoma as of 25/09/2010. Due to variations in hardware and firmware version(s) throughout a product's lifecycle, Optoma cannot guarantee compatibility with models and source devices supplied by other manufacturers.

Copyright © 2010, Optoma Europe Ltd. Brightness and lamp lifetime will vary depending on selected projector mode, environmental conditions and usage. As is common with all lamp based projectors, brightness will decrease over the lamp lifetime. Typical lamp life achieved through testing. Will vary according to operational use and environmental conditions. Windows is a registered trademark of Microsoft Corporation in the United States and other countries.
