

PCM.1

:: Product Description

* SYNQ's PCM-1 is a multifunctional "designed in Belgium" PC-Media controller, designed for DJs switching from traditional mixing to hi-tech LAPTOP DJing!

* This compact 19"/3U DJ-controller is fully USB MIDI compliant so it can be used with any DJ-software available.

* Thanks to its well-arranged controls the PCM-1 is the ultimate tool for any computer DJ:

- * 58 buttons
- * 7 digital encoders with push-to-select knobs
- * 9 digital knobs for tone + volume control
- * 5 digital faders, including 1 user replaceable crossfader
- * 2 jog wheels for scratching
- * 2 "magic" shift-buttons double the functions of each control!

* PCM-1 can be used on any modern laptop or PC (Windows® XP/Vista and Mac® OSX)

* The built-in 6channel soundcard is ASIO-compatible and can be configured in different ways:

- * Mixed master output (internal mixer)
- * Decks A and B with separate outputs and fader start inputs (use with external mixer)
- * 6.3mm Jack headphone output for PFL

* PCM-1 comes packaged with a new professional DJ Software called ["Deckadance"](#) (click here).

* NOT just some cheap, completely stripped LE-version but the full featured Deckadance "House edition", including free upgrades, free online support and user forums and tons of free extra's such as royalty-free professional loops, samples, etc.

* Deckadance has incredible nifty functions like "1-click" beat matching, automatic loops, 4 cue points per track, mix recorder, …

- * Deckadance includes 8 samplers (recording/saving samples, volume, beat sync, pitching, effect, PFL, looping, …)
- * Deckadance provides 2 Relooper editors each with effects and 3 fully editable patterns to slice, re-trigger, mute your tracks in perfect beat sync!
 - * Deckadance can load any VST-compliant effect to ensure that your creative mixing skills become virtually unlimited!
 - * Deckadance can run as a standalone program or as a VSTi plugin inside your favorite applications such as Ableton Live, Cubase, FL Studio, … to ensure unlimited creativity!
 - * Deckadance plays MP3, WAV and OGG
